

IMPORTANT UPDATE!!!

Hey folks, I know there has been lots of talk, rumours, and malicious gossip going around lately, so we are here to let you know where everything currently stands.

As many of you may know in December of 2009, the Girl Guides of Canada made the decision to close 16 of their camps, most of which were located in Southwestern ON. This includes the camp that we have been renting for the Spirits of the Earth for the last 4 years.

Fox and I are currently going through the very lengthy process of purchasing the site so that Spirits of the Earth will have a PERMANENT HOME. However non-profit companies have many hoops to maneuver through, lots of paperwork, and this does take time. So unfortunately it will not be possible to hold fest on our usual land, as paperwork will not be completed prior to July.

In the meantime we have been working very hard to find a new temporary home for Spirits. SPIRITS OF THE EARTH FESTIVAL is most definitely NOT going anywhere, and we are stoked to bring you another incredibly transformative week! Due to extra time that was required to find a new park, and people hesitating to register based on the rumour mill, we will be extending our EARLY BIRD SPECIAL an extra month....that's right 33% off registration, until May 1, 2010. www.spiritsfest.com/registrar/guests.htm

The Gods guided us to a beautiful 69 acres of nature at it's finest, mostly forested with a wetlands project, open fields and a stream running though the grounds. There is also an incredibly breath-taking altar made with raw crystals, and a magickal drum circle shaded beneath the trees. There are forested or open camping areas, and we encourage you to explore the many trails within the camp. The new site also includes amenities such as Indoor Showers, Bathrooms, and a large Dining Hall. We will of course still have our amazing Outdoor showers, with their unlimited hot water....ahhhhhh!

So we look forward to gathering again in nature's sacred womb, as we celebrate life, love, friendship and COMMUNITY!
